

Senior Frontend engineer with 6+ years of experience building and maintaining React and TypeScript applications in product-focused teams. Comfortable collaborating across product, design, and backend, with a strong sense of ownership and a collaborative working style.

Skills

Frontend: ReactJS, TypeScript, Next.js, Vite, Tailwind CSS, Redux, ShadCN, Node.js, NPM/PNPM
Testing: Jest, React Testing Library, Cypress, Vitest
Architecture: Microfrontends, Module Federation, Monorepos (Turborepo)
Languages: English Native; Spanish B2+

Experience

Senior Software Engineer - Independent Projects, Remote

August 2025 - Present

- Building and iterating on small web applications using React and TypeScript with Vite or Next.js and Supabase
- Exploring backend services, data flows, and deployment for small-scale products
- Making end-to-end UX and product decisions from idea to implementation

Senior Frontend Software Engineer - Scopely (Playgami), Barcelona

May 2022 - August 2025

- Led frontend development of user-facing products including A/B testing, segmentation, and user profiling, supporting multiple internal teams and their end users.
- Improved delivery predictability by introducing structured workload estimations and team planning, while creating technical design documents for features and projects.
- Shared knowledge through mentoring, pair programming and delivering internal workshops, supporting team learning and onboarding.
- Migrated from micro frontends with module federation to a modern stack with Turborepo, optimizing performance and scalability.

Software Engineer & Consultant - Thoughtworks, Barcelona

September 2021 - April 2022

- Consultant based role with experience facilitating meetings and delivering feedback as well as continually iterating code to ensure high standards delivered to the client and stakeholders.
- Building a customer-centric portal using ReactJS and Java that aimed to minimize reliance on customer service representatives, significantly enhancing the user experience.

Frontend Software Engineer & Tech Lead - Marfeel, Barcelona

May 2019 - September 2021

- Led technical discovery (estimations of complexity and initial web scraping) for new clients.
- Specialized in the integration and customization of external providers of media, analytics, ad services and custom widgets.
- Collaborated on migration of codebase from Vanilla JavaScript to ReactJS.
- Delivered React and testing workshops and was promoted to Tech Lead of a 5-person pod

Education

Full stack web developer bootcamp - Le Wagon, Barcelona

Bachelor of Arts in Psychology (Hons) - University of the West of Scotland, Glasgow
